JSM HIGH SCHOOLS JSM ONLINE EDUCATION SERVICES

“The function of education is to teach one to think intensively and to think critically. Intelligence plus character - that is the goal of true education.”

J.S.M Educational society established in 1992 under the chairmanship of N.Ramesh Rao, is serving hard to provide quality education. Under this society we have started J.S.M educational institutions to enlighten the nation. At present 2500 students are pursuing their education in our Institute. Now we are also offering Online education, with our knowledge partner MC Online (Singapore).

ONLINE EDUCATION

people in the countries where traditional learning is facing various obstacles can take advantage of online courses. So far, e-learning has been effective to the people that understood its value. It offers the chance to have great results for lower costs and sometimes for no costs at all.

e-learning can revolutionize education as it provides new opportunities for traditional learning.

SPECIAL STORY

short history of 'pi'

Pi (π) is a mathematical constant that is the ratio of a circle's circumference to its diameter, and is approximately equal to 3.14159. It has been represented by the Greek letter " π " since the mid-18th century, though it is also sometimes written as pi. π is an irrational number, which means that it cannot be expressed exactly as a ratio of two integers (such as $22/7$ or other fractions that are commonly used to approximate π).
